What do you expect of a collaborative network on quinoa?

I expect to new people working in the quinoa. I am more concern to explore the possibilities and obstacles about the holy grain.

What degree of interest do you have in professional networks?

I am doing the master research thesis on Quinoa. I love to interact and meet the professional who are working in the same field.

What suggestions would you make for the future development of the quinoa network?

I suggest to get connect with more people from the various part of the world who are trying to establish this crop as a future crop. I also suggest to have a live forum or discussion section to share the people experience about the crop.

What communication tools do you expect for a network?

- site webwebsitePágina web

Are you directly responsible for conducting quinoa crop trials in your country? ?

Non - No
