QUINOA AT WUR

**Adresse URL**

<https://www.wur.nl/en/Dossiers/file/Quinoa-1.htm>

Description

Wageningen scientists work on the development of new quinoa cultivars suitable for cultivation in Europa. Scientists are investigating how quinoa can best be grown while the composition of quinoa is studied to find out whether the gluten-free quinoa contains valuable constituents such as proteins.

<https://gcn-quinoa.org/?WwwSolidfoodGlobal>

Description

'Solid Food' is a social enterprise that produces quinoa in Ayacucho, Peru and sells it in Europe to the food industry, wholesalers and retailers. Thanks to our direct collaboration with 500 quinoa farmers in Peru and our vertical integration, we can guarantee 100% traceability and achieve a major social impact.
